

**AUTOCLAVE GT 350**

**STANDARDS**

UNI EN ISO 10545

On request: UNI EN 13258, ASTM 424-93, ASTM C 456-93

**DESCRIPTION**

Autoclave for crazing test of glazed ceramic tiles. The pressurized container is all made by stainless steel AISI-304, suitably insulated, while the supporting frame is made by steel epoxy powder painted. Thanks to the programmable microprocessor, the autoclave can work with standardized cycles (according to UNI EN ISO 10545-11 standard) and cycles customized by the customer.

**THE AUTOCLAVE IS PRODUCED ACCORDING TO 2014/68/UE-PED ASME STANDARD ON REQUEST**

**TECHNICAL SPECIFICATIONS**

- Test container all stainless steel AISI-304 made
- Working cycle UNI EN ISO 10545-11 and customized cycles
- Electrical Heating
- Cooling by coil water controlled by a solenoid valve
- Cover closing by means of screws and VITON gasket
- Supply: 400 V - 50 Hz three phase (other voltage on request)

**EQUIPMENT**

- Sample holder basket in AISI-304

**ACCESSORIES AND SPARE PARTS**

GT1191	Electric resistance 3 kw and gasket
GT0142	Manometer 0 ÷16 bar
GT1390	Safety valve 11,5 bar
GT0144	Seal ring for cover
GT1649	Pressure transducer K 11 bar
GT1253	Solenoid valve
GT1060	Electronic programmable microprocessor
