

CODE GT2266
 OVERALL DIMENSIONS ... 1134x465x1860
 POWER 0,75 kW
 WEIGHT 160 Kg

ABRASIMETER ASTM G65-16

STANDARDS

ASTM G65-16

DESCRIPTION

Laboratory instrument to determine the resistance to abrasion on metallic samples according to the ASTM G65 standard.

TECHNICAL SPECIFICATIONS

- Instrument equipped with touch screen for the execution of the working cycle
- Arranged for dust extractor
- Sample block clamp vice
- Weight structure block
- Flow regulator nozzle as for ASTM G65-16 STANDARD
- Load cell to validate the force applied on the specimen before testing
- Power supply 230V - 50Hz

EQUIPMENT

- Steel disc with rubber coating (neoprene) in accordance with ASTM G65-16 STANDARD
