

INDUSTRIAL PLATFORM SCALE

DESCRIPTION

Electronic industrial scale, strong with high sensitivity. Simple and easy to use. Large rectangular plate. Ideal for the ceramic industry and industrial applications.

TECHNICAL SPECIFICATIONS

- Display LCD with backlight
- Precision scale load cell
- Selectable measure units: Kg, g, oz, lb
- External calibration
- Parts counting
- Possibility to using the separately display
- Serial interface RS232.
- Stable indicator
- Power supply AC 12V/500mA
- Rechargeable internal battery 6V 4AH
- Work temperature 0 - 40 °C
- Air bubble and leveling feet
- Net weight 25 kg

ACCESSORIES AND SPARE PARTS

GT2557	Calibration Weight 5 Kg
GT2558	Calibration Weight 10 Kg
GT2218	Calibration Weight 20 Kg
