

CODE **GT2651**
MODEL **PRESSA 200 T PLUS**
EXTERNAL DIMENSIONS 870x600x1400 mm
MAXIMUM FORCE APPLIED 200 Ton
WEIGHT 900 Kg
POWER 750 W
VOLTAGE 230V

PRESS 200 TON PLUS

STANDARDS

EN 772-1 | ASTM C39 | ASTM C140 | ASTM C1314 | AASHTO T22 | NF P18-411 | BS 1610 | BS 6073 | BS 812: 110 | BS 812: 111 | API RP 19 | CEN ISO 13503-2

DESCRIPTION

Press for compression tests, capacity 2000 kN / 203 Ton, motorized with touch-screen control unit (semi-automatic model), to test blocks max. 500x300 mm, cubes up to 300 mm per side and cylinders up to Ø 160x320 mm.

TECHNICAL SPECIFICATIONS

- Manometers Ø 250 mm with specific resistance scales for cubes 150 mm and cylinders Ø 150 – 160 mm
- Caliber divisions: 2000 kN div. 5 kn
- Maximum. vertical daylight: 336 mm
- Horizontal daylight between columns: 324 mm
- Compression plates 510x320x55 mm
- High rigidity and heavy weight 4-column frame.
